

COTTESLOE PRIMARY SCHOOL

# COASTAL PLANTING PROJECT

Our group members: Yoshi, Ben, Mikayla, Euan, Elsa, Tom

Our plant is called: Red eyed wattle  
Briffany, Vanessa

Describe these features of the plant:

- Colour green leaves, red and black seeds
- Texture smooth a bit crumby
- Leaves green
- Flowers yellow flowers
- Seeds/berries red and black seeds

Our plant will grow well in the dunes at Cottesloe because:

it can cope with salt and it will hold the sand down. Doesn't need lots of water.

Sketch a picture of your plant here, showing all the important features:
