

COTTESLOE PRIMARY SCHOOL

COASTAL PLANTING PROJECT

Our group members: Angus Michael Charlie Daisy Ursula

Robbie Tony
Our plant is called: Spinifex grass

Describe these features of the plant:

- Colour green / brown
- Texture Male - smooth, female: grippy
- Leaves Thin, long, slender
- Flowers spiky ball
- Seeds/berries sticky wheel-like

Our plant will grow well in the dunes at Cottesloe because:

It is flexible in the breeze, they
can't get caught in the wind.

Sketch a picture of your plant here, showing all the important features:
