COTTESLOE PRIMARY SCHOOL

COASTAL PLANTING PROJECT

Our group members: Isabel, Aimee, Timothy, Sam, Tim, Liam, Creame
Our plant is called: Coastal Sedge

Describe these features of the plant:

- Colour Green Stem
- Texture Smooth and sharp on top and on sides.
- Leaves long, about one metre, green, hard
- Flowers brown and bristly in a cluster.
- Seeds/berries tiny green nuts which turns gold then brown.

Our plant will grow well in the dunes at Cottesloe because:

the seeds are at the top and blow away in the wind to make more plants. there are roots which hold the sand.

ground under.
